TROPICAL CYCLONE BULLETIN NO. 5

Tropical Depression “FABIAN”

Issued at 5:00 PM, 17 July 2021

Valid for broadcast until the next bulletin at 11:00 PM today

TROPICAL CYCLONE WIND SIGNALS IN EFFECT
No Tropical Cyclone Wind Signal is currently in effect.

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall “FABIAN” is unlikely to bring heavy rainfall in the country throughout the forecast period. However, this tropical cyclone is currently enhancing the Southwest Monsoon which may bring monsoon rains over Palawan and Occidental Mindoro within 24 hours. For more information, see Weather Advisory #2 for Southwest Monsoon issued at 11:00 AM today.</p> <p>Severe Winds The latest forecast scenario for “FABIAN” shows that the hoisting of Tropical Cyclone Wind Signals over any land area in the country remains less likely.</p>

HAZARDS AFFECTING COASTAL WATERS
In the next 24 hours, Tropical Depression “FABIAN” remains less likely to cause sea conditions within the coastal waters of the country which may be risky to mariners of any type of sea vessel.

TRACK AND INTENSITY OUTLOOK
<ul style="list-style-type: none"> On the forecast track, “FABIAN” will remain far from the Philippine landmass throughout the forecast period. The tropical depression is forecast to move generally north northwestward or northwestward until Tuesday morning before turning west northwestward by Tuesday afternoon. “FABIAN” may exit the PAR (through the northern boundary) on Monday afternoon or evening while moving towards the southern portion of the Ryukyu Islands. “FABIAN” is forecast to reach tropical storm category within 12 hours. Furthermore, this tropical cyclone will continue intensifying throughout the remainder of the forecast period and may reach typhoon category by Tuesday morning.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless an intermediate bulletin is released, the next tropical cyclone bulletin will be issued at 11:00 PM today.
